

**Caterina Rosini**  
Eco & Systemic Designer

The academic career has allowed me to get in touch with my real life interests:  
Sustainability, not only environmental but all-round social and economic;  
Relationships and cultural exchanges with people from different countries and cultures;  
The drive to change the rules of the game and make a real contribution to improving the world we live in and the ways we live it.

*“Problems cannot be solved at the same level of knowledge as those who created them.”*

## CHART OF VALUES

- Respect for people and their work, always, you never know the story of the person in front of you, being kind and respectful is important
- Throwing off the mask, my personality makes me who I am. I don't have to hide my passions and interests
- Cultivate relationships to keep them alive so that we can enrich ourselves every day
- Happiness does not depend on what we lack but on the good use we make of what we already have
- "Even the best broom sweeps one corner at a time", wisdom from my grandmother - no matter how many things you have to do, one step at a time, you reach the top
