

FRANCO PELLEREY
CURRICULUM VITAE ET STUDIORUM

Dipartimento di Scienze Matematiche
Politecnico di Torino
Corso Duca degli Abruzzi 24
I-10129 TORINO (ITALY)
TEL: +39.011.5647541
E-MAIL: franco.pellerey@polito.it
URL: <https://staff.polito.it/franco.pellerey/>
ORCID: <https://orcid.org/0000-0002-8983-855X>

Torino, January 2nd, 2023

EDUCATIONAL QUALIFICATIONS

- **M.S. in Mathematics**, Università di Torino, July 1988. Thesis entitled *Generalizations of the classical epidemiological model and numerical simulations*.
- **Ph.D. in Computational Mathematics and Operations Research**. Università di Milano, June 1993. Thesis entitled *Reliability Characterizations and Partial Stochastic Orders for Shock Models*.

EMPLOYEMENT RECORD

- **Assistant Professor** – Probability and Mathematical Statistics, November 1994 – October 1998 (Università di Urbino and Politecnico di Torino).
- **Associate Professor** – Mathematical Methods for Economics, Actuarial Sciences and Finance, November 1998 – October 2003 (Università di Bergamo and Politecnico di Torino).
- **Associate Professor** – Probability and Mathematical Statistics, November 2003 – December 2010 (Politecnico di Torino).
- **Full Professor** – Probability and Mathematical Statistics, December 2010 – (Politecnico di Torino).

EXPERIENCE IN UNIVERSITY ADMINISTRATION (selection)

- Member of the Board of the **PhD Committee** in Environment and Territory, Politecnico di Torino (2005-2006).
- Member of the Board of the **PhD Committee**, PhD in Pure and Applied, Politecnico di Torino and Università di Torino (2007 -).
- **Vice-Dean of the Faculty** of Architecture, Politecnico di Torino (2007-2010).
- Member of the **Executive Board** of the Department of Mathematics, Politecnico di Torino (2008 - 2019).
- Member of the **Executive Board** of the Electronic Engineering, Telecommunications and Physics School, Politecnico di Torino (2012-2015, 2018-).
- **Coordinator** of the Education Committee of the Department of Mathematical Sciences, Politecnico di Torino (2012 -).
- **Deputy Head of the Department** of Mathematical Sciences, Politecnico di Torino (2015-2019)
- Member of the **Scientific Board** of the Responsible Risk Resilience Center (R3C), Politecnico di Torino (2018 -)

TEACHING

Since the beginning of his career, he held the following courses (In brackets, the number of times).

Bachelor and Master courses:

- Matematica Generale - Politecnico di Torino (11)
- Statistica Inferenziale - Politecnico di Torino (8)
- Statistica - Politecnico di Torino (3)
- Stochastic Processes (in English) - Politecnico di Torino (12)
- Processi Stocastici - Politecnico di Torino (2)
- Calcolo delle Probabilità - Politecnico di Torino (9)
- Complementi di Analisi e Calcolo delle Probabilità - Politecnico di Torino (1)
- Metodi Matematici per Ingegneria (module of Probability) - Politecnico di Torino (9)
- Mathematical Methods (in English) - Politecnico di Torino (3)
- Fundamentals of Mathematics II (in English) – ESCP Europe (3)
- Analisi Matematica 1 - Politecnico di Torino (3)
- Elaborazione Statistica dei Dati - Politecnico di Torino (5)
- Fondamenti di Informatica - Politecnico di Torino (2)
- Experimental Statistics and Mechanical Measurements (in English) - Turin Tashkent Politechnic University (8)
- Mass Appraisal e Modelli Statistici non Parametrici - Master COREP - Politecnico di Torino (7)
- Elaborazione Automatica dei Dati per le Decisioni Economiche e Finanziarie Economia - Università di Bergamo (1)
- Metodi Probabilistici, Statistici e Processi Stocastici - Università di Urbino (1)

Ph.D. courses:

- *Processi Stocastici in Campo Assicurativo e Finanziario: una panoramica*, Università di Torino, 2011;
- *Confronti Stocastici ed Applicazioni*, Politecnico di Torino, 2007;
- *Statistica Multivariata ed Applicazioni*, Politecnico di Torino, 2007;
- *Dependence Orders, Dependence Concepts and Applications in Reliability and Actuarial Sciences*, University of Xiamen, China, 2010, and Politecnico di Torino, 2011
- *Stochastic Processes and their Applications*, Politecnico di Torino, 2012 (with P. Siri e M. Santacroce)
- *Advanced Statistical Methods*, Politecnico di Torino, 2014, 2016 and 2018 (with P. Brandimarte, R. Fontana e M. Gasparini);
- *Statistical Learning*, Politecnico di Torino, 2019, 2020 (with R. Fontana e M. Gasparini);

He has also given courses of introduction to multivariate statistics and massive estimation at regional offices (Turin, Milan, Rome, Bari) of the *Scuola Superiore dell'Economia e delle Finanze* (Higher School of Economics and Finance), Italian Ministry of Economy and Finance.

RESEARCH INTERESTS

- **Stochastic orders:** properties, mutual relationships, closures, applications in risk theory and actuarial sciences. Comparisons of stochastic processes and applications in population dynamics.
- **Dependence orders and positive dependence notions:** closure properties and characterizations, applications in actuarial sciences, reliability and social sciences.
- **Non parametrical classification of lifetimes distributions:** closure properties, equivalent definitions, characterizations of reliability classes, applications in operations research and engineering fields.
- **Applied multivariate statistics** in engineering and social sciences.

RESEARCH PROJECTS

- **Coordinator** of the Turin Local Unit “Continuous-time models of asset pricing in presence of insider traders.” of the PRIN Research Project “Heterogeneous beliefs and value of knowledge” (National Coordinator Prof. Marco Li Calzi, 2001-2003).
- **Coordinator** of the Turin Local Unit “Supermodular and directionally convex orders and their applications in insurance, risk and portfolio theory.” of the PRIN Research Project “Concepts of Supermodularity in Economics” (National Coordinator Prof. Massimo Marinacci, 2002-2004).
- **Scientific Director** of the Polytechnic industrial project "Nonlinear multivariate statistical models in industry: identification and calibrations of models, and problems related to the design of experiments for analysis of data from measurements with X-rays, "Project X-ray Fat Analyzer as part of Research Projects Industrial and/or Experimental Development of the Piedmont Region (2012-2013).
- **Scientific Director** of the third parties research contract "Application of multivariate statistical analysis to vibration monitoring of rotating parts of the transmission system of the helicopters", signed between AgustaWestland and the Polytechnic of Turin (2013-2015).

INVITED TALKS (selection)

- The Iterated Equilibrium Distributions' Sequence and its Applications (plenary talk), *Workshop on Statistical Inference under Non-Standard Conditions*, Panjab University di Chandigarh (India), 1996.
- Stochastic Comparison for Multivariate Shock Models (plenary talk), *International Conference on Reliability and Survival Analysis*, Northern Illinois University di DeKalb (Illinois), 1998.
- Convex ordering for integrated telegrapher's processes, *Third International Conference on Mathematical Methods in Reliability*, Norwegian University of Science and Technology, Trondheim (Norway), 2002.
- On random sums with dependence between summands and number of summands, *Third International Workshop on Applied Probability*, University of Connecticut, Storrs (USA), 2006.
- On Aging Properties for Bivariate Lifetimes with Archimedean Survival Copulas, *Fifth International Conference on Mathematical Methods in Reliability*, University of Strathclyde, Glasgow (UK), 2007.
- Bisexual Galton-Watson Branching Processes in Random Environments, *BIOCOMP 2007 - Collective Dynamics: Topics on Competition and Cooperation in the Biosciences*, Vietri sul Mare, Italy, 2007.
- Stochastic Comparisons of Residual Lifetimes in Multivariate Frailty Models, *Sixth International Conference on Mathematical Methods in Reliability*, Gubkin Russian State Oil and Gas University, Moscow (Russia), 2009.

- Multivariate aging properties and stochastic comparisons under Archimedean dependence structures: a survey, *Workshop on Copula Theory and Its Applications*, University of Warsaw, (Poland), 2009.
- On the reliability of series and parallel systems with randomized components, *Seventh International Conference on Mathematical Methods in Reliability*, Beijing Institute of Technology, Beijing (Cina), 2011.
- Stochastic Orders Between Used Systems and Systems with Used Components (planary talk), *SORR2011, International Workshop on Stochastic Orders in Reliability and Risk Management*, Xiamen University (Cina), 2011.
- Dependence orders for vector functions of independent random variables, *International Workshop on Applied Probability 2012*, Jerusalem (Israel), 2012.
- A framework for the supermodular comparison of models incorporating individual and common factors (plenary talk), *International Conference on Marshall-Olkin Distributions: Advances in Theory and Applications*, Bologna, Italy, 2013.
- Univariate stochastic orders and joint stochastic orders: conditions on the copula for mutual relationships, *First Joint International Meeting RSME-SCM-SEMA-SIMAI-UMI*, Bilbao (Spain), 2014.
- Standard stochastic orders and joint stochastic orders: conditions on survival copulas for mutual relationships, *Ninth International Conference on Mathematical Methods in Reliability*, University of Tsukuba, Tokyo (Japan), 2015.
- On componentwise unimodality of copulas, *Conference on Dependence and Risk Measures*, Università Milano-Bicocca, 2015.
- Contribution of POLITO to the Uzbek educational system, *Tashkent International Innovation Forum*, Tashkent (Uzbekistan), 2016.
- On mutual relationships between joint stochastic orders and standard stochastic orders, *International workshop on Mathematical Reliability and Safety*, XuZhou (China), 2016.
- Standard stochastic orders and joint stochastic orders: mutual relationships based on copulas, *13th Iranian Statistical Conference*, Kerman (Iran), 2016
- An application of copulae in the analysis of sand transport phenomena, *10th International Conference of the ERCIM WG on Computational and Methodological Statistics*, London, 2017.
- On the role of dependence in residual lifetimes, *Stochastic Modeling on Complex Systems*, On-line conference (Italy), 2020.

INVITED SEMINAR OUTSIDE ITALY (selection)

Universidad de Murcia, Spain (2005), Universidad de Sevilla, Spain (2005), Universidad Carlos III de Madrid, Spain (2008), Universidad de Cadiz, Spain (2010), University of Xiamen, Cina (2010), University of Haifa (2013), Turin Polytechnic University in Tashkent (2016).

TRAINING OF EARLY-STAGE RESEARCHERS

During his career he devoted long time in training activities for young Italian and foreign PhD students and researchers. Among others: P. Semeraro, K. Petakos, C. Zucca, M. Kayid, X. Gao, S. Ortobelli, M. Carletti, J. Mulero, R. Rodriguez-Grignolo, H. Llaniado Rodas, S. Yasaei Sekeh, S. Zalzadeh, M. Rezapour, L. Raffaele, G. Mihaylov, O. Telve, P. Ortega Jiménez.

DOCTORAL STUDENTS

He has been the **supervisor** of the following PhD students:

- Ottavia Telve (PhD in Pure and Applied Mathematics, Univ. and Pol. Torino)
- Saeed Zalzadeh (PhD in Mathematics, Pol. Torino)
- Patrizia Semeraro (PhD in Mathematics, Univ. Torino);
- Maria del Rosario Rodriguez Grignolo (PhD in Statistics and Operations Research, Univ. of Sevilla, Spain);
- Sergio Ortobelli (PhD in Computational Methods for Financial Decisions, Univ. Bergamo),
- Cristina Zucca (PhD in Computational Mathematics and Operations Research, Univ. Milano).
- Sonia Airaldi (PhD in Real Estate, Pol. Torino),

OTHER SERVICE ACTIVITIES IN THE FIELD OF RESEARCH

- **Associate Editor** of the Journal "Mathematical Methods of Statistics" (2021 - ...)
- **Associate Editor** of the "Journal of the Iranian Statistical Society" (2015 - ...)

PUBLICATIONS
