## STUDIES APPLIED FOR

Geographic Information specialist  
Technical senior expert and researcher  
Project manager

## WORK EXPERIENCE

Since November 2019

**Researcher**

Politecnico di Torino - Interuniversity Department of Regional and Urban Studies and Planning (DIST), Viale Pier Andrea Mattioli, 39, I-10125 Torino, Italy. Web: <http://www.dist.polito.it/en/>

**Senior Researcher – Geographic Information specialist**

ITHACA – Information Technology for Humanitarian Assistance, Cooperation and Action

Via P.C. Boggio 61, I-10138 Torino, Italy. Web: [www.ithacaweb.org](http://www.ithacaweb.org)

- Internal project manager for:
  - LEXIS (H2020), aimed at building an advanced engineering platform at the confluence of HPC, Cloud and Big Data. Within LEXIS, the role of ITHACA is to evaluate the impact of hazard predictions on satellite acquisitions pre-triggering and on emergency mapping (e.g. Copernicus EMS-RM) products improvement (<https://lexis-project.eu>)
  - ESA EO Clinic, rapid-response mechanism for small-scale and exploratory uses of satellite EO information in support of a wide range of projects and activities specific to International Development ([https://eo4society.esa.int/eo\\_clinic/](https://eo4society.esa.int/eo_clinic/))
  - Italian Maritime Economy Annual Reports: analysis of containerships and Ro-Ro AIS historical movements and port calls aimed at identifying major commercial patterns, with a specific focus on the Mediterranean basin – 2017-2018
  - Sustainable Urban Mobility Planning in Myanmar (EuropeAid/135-157/L/ACT/MM) aimed at improving the capacity of the City of Yangon in planning, analysis and management of mobility and control of traffic flows, providing technological solutions for the management and planning of traffic flows and mobility, increasing awareness of citizens / members of urban communities of the need to develop responsible behaviours for a sustainable private and public mobility. Activities include data gap analysis and means for new data acquisition and integration with open reference data (OpenStreetMap), SDI design and implementation and training on transportation related data management – 2015-2017
  - Solid Waste Management in Myanmar (EuropeAid DCI-NSAPVD/2012/310-773) aimed at integrating environmental protection principles into policies and programmes in Myanmar by strengthening the capacities of Local Authorities of Yangon City in solid waste management. Activities include data gap analysis and means for new data acquisition, SDI design and implementation and training on GIS basic concepts, remote sensing, GPS data collection and integration with open reference data (OpenStreetMap), data management, data analysis and representation – 2013-2016
  - Spatial Data Infrastructure for UN WFP: design and implementation of a global geodatabase, procedures and tools for efficiently and effectively storing, analysing and representing geographic data. Development and integration of additional components such as metadata catalogue, data access and processing services, WebGIS applications (2007-2015)
- Project involvement:
  - Copernicus “Emergency Management Service – Rapid Mapping (2015-ongoing) and Mapping in Rush Mode” 2012-2014 (<http://emergency.copernicus.eu/mapping/list-of-activations-rush>): on-demand and fast provision (within hours or days) of geospatial information derived from satellite remote sensing and completed by available in situ or open data sources in support of emergency

management activities immediately following an emergency event. Analyses of the Copernicus EMS technical specifications and requirements (exploiting also the active role in IWG-SEM). Identification of proper ETL procedures for specific EU NMCA reference datasets. Involvement in the EM-KEN meetings supporting the analysis of the Emergency Mapping Service requirements in the framework of action coordinated by EEA to secure the access to EU NMCA datasets for the Copernicus EMS. Geospatial data management and integration (including data coming from crowdsourced mapping initiatives), software customization, thematic image processing and interpretation, rapid mapping production

- Geospatial data management and integration within different projects aiming at building national spatial data infrastructures (Malawi, Haiti) based on OpenSource technologies
- GMES Preparatory Action "GMES Reference Data Access covering areas outside Europe – Lot 2 : analysis of non-EU reference data availability, quality and consistency and identification of related data information gaps ranked by priority, including actions for complementary technical activities to remedy – 2009-2012
- Specialist in thematic image processing and interpretation and rapid mapping production in support to WFP Emergency Preparedness and Response unit – 2007-2010
- Deployment in the field to support WFP operations in Haiti for the 2010 earthquake damage assessment (Port-au-Prince, 2010).
- Capacity building on relevant GIS and Remote Sensing techniques for WFP officers, NGO's and local authorities in developing countries (Egypt, Malawi, Myanmar, Russia, Thailand)
- Lecturer in international training courses mainly focused on GIS and SDI:
  - Traffic and routing data input and management training in the framework of SUMP project, Yangon (Myanmar), 7-15 February 2017
  - Data analysis and representation training in the framework of SWM2 project, Yangon (Myanmar), 26-30 October 2015
  - Rapid Mapping technical training in the framework of Malawi Spatial Data Platform, Lilongwe (Malawi), 29 September – 1 October 2014
  - Basic GIS training in the framework of Malawi Spatial Data Platform, Lilongwe (Malawi), 20-24 January 2014
  - Basic GIS training in the framework of SWM2 project, Yangon (Myanmar), 21-25 November 2013
  - GIS and Remote Sensing training for UN WFP officers, Torino (Italy), 10-13 October 2011
  - Advanced GIS and Remote Sensing Technical Training for the World Food Programme, Myanmar Office, Yangon and Nay Pyi Taw (Myanmar), 20-27 September 2011
  - Geomatics supporting Disaster Management for the 3S 2010 International Summer Student Seminar, Novosibirsk (Russia), 21-25 September 2010
- Drafting of geomatics-related international projects proposals
- Organization of international technical training courses

**Business or sector** Research institute (Non Profit association)

September 2000 – January 2007

### Researcher and GIS analyst

Istituto Geografico De Agostini, 15, via G. da Verrazano, I-28100 Novara, Italy

- Responsible for the project Map of Italy at scale 1/100.000; geodatabase definition and implementation, internal coordination and software customization. Extraction of relevant information for cartographic data updating from satellite images.
- Coordination of the activities finalized to the realization of an interferometric DEM (based on SAR images) with 20m resolution and 15m precision for the whole Italian territory. Development of software procedures.
- Since march 2005, coordination of the working group in charge of the realization of high quality cartography (atlases, raster maps, internet services) for business users; among the clients, Shell, Esso, Routex consortium, Tamoil, Volvo, BMW, Corriere della Sera (Italian newspaper).

**Business or sector** Map editor/publishing

March 1997 – August 2000

### Researcher and Environmental Officer

ERSAL (Regional Office for Agricultural Development of Lombardy), now named ERSAF, 38, via Copernico, I-20125 Milano, Italy.

- Responsible of the Floodgen project (CEO program, DGXII); use of remote sensing techniques for mapping the upstream contributing agricultural areas in the form of risk categories for the flood zones located downstream. Design and test of a remote sensing based decision support tool for modulating the land management policy in order to reduce flood risk.
- Development of the program to activate on the Po plain a pilot zone for the preliminary test of the defined procedures for the realization of the new 1/250.000 European Soil Database.
- Responsible for the Idropedo project, finalized to the characterization of physical and hydrological properties of soil; that project included field campaigns, data acquisition and management in a MS Access database, data analysis and modeling.
- Realization of detailed DEM using GPS instruments.

*Business or sector* Public administration

January 1997 – February 1997

#### GIS analyst

RSDE (Remote Sensing Data Engineering) 78, via G. Washington, I-20146 Milano, Italy

Geometrical correction, georeferentiation and interpretation of satellite images in the framework of the CORINE Land Cover project.

*Business or sector* Remote Sensing SME

April 1996 – December 1996

#### Researcher and GIS analyst

European Commission Joint Research Centre, 1, via Enrico Fermi, I-21027 Ispra (VA), Italy

- Application of geostatistic and multi-variate analysis to pedological data.
- Elaboration and interpretation of multi-spectral data obtained with a transportable spectroradiometer (Fieldspec) from about 60 soil samples; evaluation on the possibility to define soil colour automatically on the basis of spectral response.
- Collaboration with the European Soil Bureau, coordination body for the pedological research in Europe. Activities relates to the update and control of version 3.2 of the European Soil Database at scale 1/1.000.000 and to the planning of the new database at scale 1/250.000.

*Business or sector* International organization

September 1995 – March 1996

#### Researcher and GIS analyst

INRA (National Institute for Agronomic Research), 2163 avenue de la Pomme de Pin – Ardon, F-45075 Orleans, France

Geostatistical and multi-variate analysis approach for soil classification; PCA and mono- and multi-variance regression analysis have been applied to various combinations of physical and chemical properties of 65 soil profiles realized on alluvial terraces of Garonna river.

*Business or sector* International organization

### EDUCATION AND TRAINING

---

September – November 2018

21, 23, 25 July 2014

#### Project Management (27 hours)

Corso sul Project Management - Metodologie e strumenti per la pianificazione, gestione e controllo di un progetto

Presenting to the scientific community (CEIPIEMONTE S.C.P.A.)

International Business Communication (CEIPIEMONTE S.C.P.A.)

PhD in Environmental Geoengineering, "Design and implementation of a Spatial Data Infrastructure for the UN World Food Programme"

Politecnico di Torino – Land, Environment and Geoengineering Dept., Corso Duca degli Abruzzi 24, I-10129 Torino, Italy

Design, testing and implementation of a complete solution for the UN WFP Spatial Data infrastructure. WFP SDI provides geographic data storage capabilities, instruments for data searching and retrieving through a metadata catalogue, data access services, processing services and WebGIS applications. Specific tools has been developed to support emergency preparedness and response activities, such as identification of flood prone areas, affected population estimates and automatic map production exploiting map templates.

September 1988 – July 1994

**Master's degree in Geology**

Università degli Studi di Milano. 7, via Festa del Perdono, I-20122 Milano, Italy

Realization of a geomorphological and a Quaternary geological map, both at scale 1/10.000, of an alpine valley of Lombardy. Moreover, in the framework of a research program on climate changes, on a territory covering the valleys Codera, Masino, Preda Rossa and Bondasca (at the border between Italy and Switzerland) the Olocenic variations in surface of approximately 60 glaciers have been analyzed using data deriving from field surveys and remote sensing.

All data have been stored in a GIS information system using a workstation Intergraph and Auto-CAD and Ilwiss software.

September 1983 – June 1988

**High School Graduation**

Liceo-Ginnasio C. Beccaria, Milano, Italy

**PERSONAL SKILLS**

Mother tongue(s)

Italian

Other language(s)

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	C2	C2	C2	C2	C2
French	C2	C2	C1	C1	B2

Levels: A1/2: Basic user - B1/2: Independent user - C1/2 Proficient user  
Common European Framework of Reference for Languages

Communication skills

Excellent communication skills deriving from the frequentation of academic fora. Very good ability to work in team. Good ability to adapt to multicultural environments, gained through my work experience abroad.

Organisational / managerial skills

Good experience in project and team management, reinforced through specific training held in 07/2014 and 09-11/2018.

Job-related skills

- Deep experience on cartography, geospatial data creation, management and analysis, Spatial Data Infrastructures design and implementation
- Solid background in processing of geo-spatial data/digital images acquired by aerial/satellite/terrestrial sensors in different part of the e.m. spectrum (VIS, NIR, TIR,...) with different technical feature (spatial, radiometric, spectral, temporal resolution).

Digital skills

SELF-ASSESSMENT				
Information processing	Communication	Content creation	Safety	Problem solving
Proficient user	Proficient user	Independent user	Independent user	Proficient user

Levels: Basic user - Independent user - Proficient user

Digital competences - Self-assessment grid

- Very good command of Microsoft Office™ tools (Word™, Excel™, Access™, and PowerPoint™).
- Good command of MacOS based systems
- GIS Software: Arc/Info, ArcGIS Desktop, ArcGIS Server, QuantumGis, Geomedia, ArcView 3, MapInfo, Idrisi, Envi, Erdas, PCI Geomatics;
- 3D rendering software: Visual Nature Studio 2
- Database: Oracle, PostgreSQL/PostGIS
- Programming languages: AML, Visual Basic and Python.

- I have acquired good competences of technical software through specific training:
  - - 03/2006 Intergraph Corporation, Geomedia 6.0 Professional
  - - 11/2002 ESRI Italia, Programming ArcObjects with VBA
  - - 02/2002 Oracle, Oracle technical overview and SQL language
  - 06/2000 ESRI Italia, Advanced ArcView GIS

Driving licence Categories A and B

## ADDITIONAL INFORMATION

## Certifications

- National scientific qualification to function as associate professor in Italian Universities for the period 2017-2023.

## Publications:

**Book chapters:**
